

COMMUNITY OUTREACH EDUCATION PLAN FOR TITLE V PRENATAL SERVICES

- I. Heath Services' Health Education & Prevention Department is responsible for community outreach/education in the communities we serve. Community Health Center System services are discussed at the beginning of each community outreach/education presentation.
- II. Health Education & Prevention Department will document on the Health Education Program Report form the program services discussed at each presentation.
- III. The Health Education & Prevention Department plans to conduct four (4) community outreach/education activities per quarter.
