

# Publishing Labs to Portal

Must be  
“reviewed” to  
publish to  
portal

Must be  
unchecked to  
publish to  
portal

Populates  
“Reason” (will  
automatically  
reflect  
transmission  
status, but can  
be changed  
manually by the  
provider)

Populates  
“Result”  
(provider’s  
interpretation  
of the results)

Populates  
“Notes”

The screenshot shows a medical lab results interface for a patient named Test, Ben, 86Y, F. The interface includes a patient summary, lab information, specimen details, and a results table. Annotations with orange arrows point to specific fields: 'Reviewed' status, 'Don't Publish to Web Portal' checkbox, 'Reason' dropdown, 'Result' dropdown, and 'Notes' text area.
